

Humanitarian HR Conference Asia 2017

BUILDING RESILIENT ORGANISATIONS IN A CHANGING HUMANITARIAN SECTOR

27 - 29 November 2017 | Bangkok, Thailand

Windsor Suites Hotel

During crisis, humanitarian organisations may experience an abrupt change in the ways their operations are run. Join HHR Asia to find out how to increase your organisation's resilience so that you will be prepared when challenges arise.

Together, we will:

- Explore the **concept** and the **principles** of organisational resilience;
- Work with **key stakeholders** to identify **strategies and practical ways** to support organisations to become resilient;
- Network with other HR and humanitarian specialists from Asia with the intention **to establish a strong Asia-based HR practitioners' network**;
- Share our respective experience at a **lively and interactive Market Place**;
- Participate in a **World Café group discussion** on how to strengthen individual and organisation resilience.

As a result of the conference we aim to identify:

- **Characteristics** of resilient organisations, leaders and aid workers;
- **The role of HR** in building resilient organisations;
- The balance between **duty of care and high performance** especially when funds are limited;
- **Key challenges** of organisational resilience.
